

GHG emission reduction targets: King County government

- King County government emissions (all sources)
- Projected emissions
- Chicago Climate Exchange actual emissions
- Chicago Climate Exchange target emissions (includes only diesel, gasoline, natural gas, and heating oil)
- Cool Counties target for total emissions for King County government (includes all emission sources)

**2000 is baseline year for Chicago Climate Exchange.*

***2007 is the first year King County is fiscally responsible for emissions reductions as part of its membership in the Chicago Climate Exchange.*
